Aims & Scope

The *IEEE Open Journal of Vehicular Technology* covers the theoretical, experimental and operational aspects of electrical and electronics engineering in mobile radio, motor vehicles and land transportation. (a) Mobile radio shall include all terrestrial mobile services. (b) Motor vehicles shall include the components and systems and motive power for propulsion and auxiliary functions. (c) Land transportation shall include the components and systems used in both automated and non-automated facets of ground transport technology.

This journal is 100% open access, which means that all content is freely available without charge to users or their institutions. All articles are currently published under Creative Commons licenses (either CCBY or CCBY-NC-ND), and the author retains copyright. Users are allowed to read, download, copy, distribute, print, search, or link to the full texts of the articles published under CCBY, or use them for any other lawful purpose, as long as proper attribution is given. Articles published under CCBY-NC-ND are also available to users under the same conditions as CCBY, but the reuse cannot be for commercial purposes or change the work in any way.

Open access is provided through the payment of an article processing charge (APC) paid after acceptance. APCs are often financed by an author's institution or the funder supporting their research.

The articles in this journal are peer reviewed in accordance with the requirements set forth in the IEEE PSPB

Proceso de envío

Open Access

* This publication is a hybrid journal, giving authors the choice of making their article freely accessible to users by paying an open access article processing charge (APC), or choosing traditional article publication, allowing access to users through subscription and other purchasing options. Now that your article has been accepted for publication you may enable unrestricted public access by selecting "yes" below. If you select yes, you commit to pay the US \$2,195 APC.

Although voluntary page charges do not apply to open access article submissions, other applicable charges (such as over-length paper charges or a charge for the use of color in print format) will be billed separately once article formatting is complete (but prior to publication). Over-length paper charge details can be found [here](#).

For any questions regarding IEEE open access policies, please refer to our [Frequently Asked Questions on open access](#).

- Yes** - please make my article Open Access. I understand that there is a \$2,195 APC associated with Open Access publication. Some institutions offer assistance for open access funding. Check our [institutional partners list](#) to see if yours is one.
- No** - my article is a traditional submission. I understand that over-length paper charges or color charges may still apply, as outlined above.

La lista de socios institucionales va a <https://open.ieee.org/for-institutions/institutional-partners/>

IEEE apoya la elección del autor cuando se publica en una revista híbrida.

Se les pide a los autores de revistas híbridas que seleccionen acceso abierto o tradicional (no OA) después de la aceptación.

Después de la aceptación – Selección de derechos de autor

Después de la aceptación, se les pedirá a los autores que elijan su licencia de derechos de autor utilizando el Formulario Electrónico de Derechos de Autor (eCF).

Los autores que publican en **revistas híbridas** pueden elegir entre:

1. Una licencia tradicional (en la que los derechos de autor se transfieren al editor)
2. Una licencia CC-BY 4.0 (en la que el autor conserva los derechos de autor y el artículo se publica en acceso abierto).
3. Una licencia CC-BY NC-ND (una licencia más restrictiva que CC-BY en el sentido de que el artículo no puede ser reutilizado con fines comerciales, ni puede ser cambiado de ninguna manera).

Los autores que publican en **revistas Gold** pueden elegir entre CC-BY o CC-BY NC-ND.

****Los autores deben confirmar cualquier restricción de licencia establecida por la institución****

Después de la aceptación – Revista híbrida

Los autores que elijan "tradicional" en un título híbrido **recibirán un correo electrónico** informándoles de la oportunidad de publicar AA si existe un acuerdo activo de AA basado en la afiliación del autor correspondiente..

The top navigation bar includes the IEEE OPEN logo on the left and several menu items: 'About', 'For Authors', 'For Institutions', 'Publishing Options', and 'What's New', each with a dropdown arrow. A search icon is located on the far right. The main content area features a large blue background with a silhouette of a person's head and a circular graphic. The text 'The Trusted Solution for Open Access Publishing' is prominently displayed. Below this, there are two orange links: 'Browse Journals and Submit a Paper' and 'Search Institutional Partners', both with right-pointing arrows. A dropdown menu is open from the 'Publishing Options' link, listing four options: 'Fully Open Access Topical Journals', 'Hybrid Open Access Journals', 'IEEE Access', and 'IEEE Title List'. A red arrow points to the 'IEEE Title List' option, which is highlighted with a light blue background.

Publishing Open Access with IEEE: A Guide for Corresponding Authors

Now you can benefit from the IEEE open access agreement with [Institution Name]. This agreement allows authors to publish open access articles in IEEE's industry-leading journals and provides reading access to over five million documents from the IEEE Xplore Digital Library. The agreement makes it more convenient for authors to publish open access articles with IEEE as eligible authors pay no access charges as these costs are covered by [Institution Name] under the agreement.

Benefits of Publishing Open Access with IEEE

IEEE journals are trusted, respected, and rank among the most highly cited in their fields. We aim to provide our authors with an outstanding publishing experience and offer numerous benefits to facilitate this.

- The advantage of being published by IEEE, whose journals are trusted, respected, and rank among the most highly cited in their fields
- Maximum visibility and global reach to millions of users of the IEEE Xplore Digital Library
- Rigorous peer review following IEEE's established publishing principles and quality standards
- Rapid decisions to get your research exposed faster with many titles targeting a publication time frame of a matter of weeks for most accepted papers
- Enhanced discoverability of author works with abstracting and indexing providers such as Elsevier, EBSCO, OCLC, Clarivate, ProQuest, IET, and NLM
- A variety of multimedia integration options (video abstracts, etc.) as well as the ability to publish code (Code Ocean) and add datasets (IEEE Dataport)

Publishing OA with IEEE: A Guide for Corresponding Authors

IEEE Open Access Publishing Options

IEEE offers a growing portfolio of gold fully open access journals spanning a wide range of topical focus areas. Publish faster online and reach a larger potential audience with a rapid, yet thorough, peer-review process.

A hybrid journal is a subscription-based journal that provides authors the choice to publish their accepted article as open access. IEEE offers over 160 hybrid journals that span an array of technology fields and offer the benefits of a respected reputation of publishing the leading research in the field.

IEEE Access is a multidisciplinary, open access journal that features a rapid, yet rigorous peer review process of 4 to 6 weeks. With over 50,000 articles to date, the journal also offers discipline-specific special sections aligned with IEEE technical communities.

For information on choosing the right publication for your research submission, please visit:
<https://publication-recommender.ieee.org/home>

Please note: Prior to submission, please check with your institution's administrator to learn if your institution has any specific funding policies on author publishing. Some institutions only fund articles published in fully open access journals due to funder mandates. Regardless, IEEE has many open access publishing options suitable for all authors that meet these policies and are mandate compliant.

5 Easy Steps to Submitting an OA Article:

- 1 Once you find a publication to submit your paper to, click "Submit Manuscript" to start the submission process from the journal home page on IEEE Xplore and follow the ScholarOne manuscript system prompts.
- 2 In the Author and Affiliations step, enter the name of your institution in the "Edit Account Information" screen and select from the results that are displayed along with the corresponding RINGGOLD IDs. The results shown will help to match your article to an open access agreement as a primary authentication method. Be sure to use your institutional email, which will be used as a secondary option to match your manuscript to an open access agreement.
- 3 If your article is accepted and you publish your article as open access, you will receive an email notification regarding APC/open access payment processes to submit a funding request. (Note: In some agreements, an open access administrator may receive this funding request automatically and you would not receive an email notification.)
- 4 Once the request is submitted, your institution's OA administrator will receive and review for approval.
- 5 To ensure accurate processing, please be sure to use your institution's name from the dropdown menu as well as your own institutional email address for all forms and submissions.
